“My first class was excellent. We were made welcome and the course objectives were explained to us. The teacher’s passion for what she was teaching us really came across and she was clearly happy to have us all there. I felt that I really wanted to partake in every exercise and the atmosphere was very pleasant.”

Student, Introduction to Drama

“I was slightly terrified at the thought of doing the course and didn’t really know what to expect. From the first minute of the first class I began to feel really at ease and within a few minutes of playing games I was thoroughly enjoying myself. By the end of the class I was really looking forward to the rest of the course.”

2nd Year 2010

“The support from the teachers was brilliant. The fact that I felt completely comfortable approaching any of the staff if I had an issue. The amazing class and challenges posed for us. The freedom to be the kind of actor you want to be and not the kind of actor the school wants to turn out.”

1st Year 2010

"The support from the staff and teachers was great. I never felt there was anything I couldn't speak to someone about if I felt the need. I couldn't have asked for a more supportive, talented bunch of people to train with and I have no doubt I will be the better actor for it. I never got the impression from any of our wonderful teachers that we were anything less than their top priority"

Regina Harris, St Mary's University 2010

"I have enjoyed every minute of it and have really improved through focusing entirely on acting. I have learned to let go which was aided very much through devising with Antoinette. In addition, I have felt extremely comfortable and like I have the freedom and space to open up and allow things to happen without judgement. I cannot thank you enough for such a phenomenal experience"

Jennifer Kane, IES Abroad

"It's like an educational trip and you don't even know you're being taught. Not only do you get to study acting but you get a better understanding of Irish culture and history first hand. I loved studying acting and having all the cultural visits planned out. It's like killing 2 birds with one stone. I learned how to trust myself better and believe in my own brilliance"

Peter Parsons, IES Abroad

"Eye opening, inspiring, amazing. This changed my life."
